Create a resource group

Basics Tags Review + create

Resource group - A container that holds related resources for an Azure solution. The resource group can include all the resources for the solution, or only those resources that you want to manage as a group. You decide how you want to allocate resources to resource groups based on what makes the most sense for your organization. [Learn more](#)

Create a virtual machine - Microsoft Azure

portal.azure.com/#create/Microsoft.VirtualMachine:ARM

Microsoft Azure

Search resources, services, and docs (G+5)

Home > cloudPlatform > Marketplace > Virtual machine

Create a virtual machine

Confirm password *

Inbound port rules

Select which virtual machine network ports are accessible from the public internet. You can specify more limited or granular network access on the Networking tab.

Public inbound ports * ☐ None ☒ Allow selected ports

Select inbound ports *

This will allow all IP addresses to access your virtual machine. This is only recommended for testing. Use the Advanced controls in the Networking tab to create rules to limit inbound traffic to known IP addresses.

Licensing

☒ I confirm I have an eligible Windows 10/11 license with multi-tenant hosting rights.
